DO4	355884.56	413592.602	73.974

Please note:
 Any discrepancy found between an Ordnance Survey benchmark and an OSGB15 computed orthometric height is likely to be due to bench mark subsidence or uplift and resulting ground survey has been carefully carried out, the orthometric height given by OSGB15 should be considered correct in preference to any other benchmark heights. OSGB15 converts GPS ellipsoid heights to orthometric heights above mean sea level.

Levels are related to OSGB15
 Value m/a

Coordinates are related to National Grid (GPS)
